Seema 先生

Hello, I'm Ms. Seema, a dedicated teacher joining this vibrant new school. I'm thrilled by its innovative approach to education, nurturing creativity, and fostering a strong sense of community. I have a keen interest in reading, travelling and finding joy in simple moments. I'm excited about the school's dynamic environment and I'm eager to learn new things. I look forward to a supportive community, growth, friendship and memorable experiences.

Amira 先生

Hello, I'm Ms. Amira. My first impression of the school has been positive. The campus is well-organized and has a welcoming atmosphere. The students and staff have been friendly and helpful, which has made my transition into the school community much smoother. I've noticed a strong commitment to both academic excellence and cultural enrichment.

I expect to contribute to the students' educational journey and help them develop their cultural understanding.

I look forward to collaborating with the teaching staff and learning from their

expertise in teaching English language. I also hope to foster a supportive and engaging learning environment where students feel motivated to excel in English.

I'm a casual reader and I find inspiration and motivation in the written words of authors who specialize in personal development, self-improvement, and logical thinking. These books often provide insights, strategies, and stories that encourage individuals to overcome challenges, set and achieve goals, and live a more fulfilling life.

Overall, I'm glad that I am given the opportunity to join the EC team. JSKL might have its own set of challenges and opportunities, so I'm excited to adapt my teaching methods to meet the needs of my students. Thank you!
